Siblings of the Month

Justice, a male black Labrador, and Sasha, a female white Shepherd, have been attending daycare since they were puppies. Justice came to us in 2004 and Sasha was added to the family in 2006. Both siblings are very attached to one another. They love to hang out and have fun with their friends at camp, but always take a break to check on one another. Congratulations Justice and Sasha!

Congratulations Justice & Sasha!

Pet Firework Fear... Tips for Dogs

- 1- Prepare a 'den' for your dog so that he has somewhere to hide during the fireworks. Encourage him to use it by hiding healthy food treats or toys there. If your dog hides in a corner or under a bed, leave him alone and do not try to coax him out. This 'bolthole' is where he will feel most secure and must be accessible at all times.
- 2- On the evenings you expect fireworks, ensure your dog is safely inside and secure doors and windows.
- 3- Make sure your pet is microchipped. If they do escape, frightened, confused animals can easily get lost.
- 4- Ensure your dog is taken out for a walk early in the evening before the fireworks start.
- 5- Draw curtains to reduce the noise from outside and play music or have the TV on to help mask the noise of fireworks.
- 6- Ignore any fearful behavior and do not try to comfort your pet. The animal will pick up on your anxiety and this may make the problem worse. Fussing over a pet that appears frightened can reward and encourage this behavior.
- 7- Don't punish your pet. This only confirms that there is something to be afraid of.
- 8- Try not to go out while the fireworks are going off. Seeing you acting normally will help your pet feel more settled.
- 9- For further information on how to prepare your pet for the firework season, please contact your vet.
